

AMENDMENTS TO THE SPECIFICATION

Please **REPLACE** the paragraph on page 15 lines 10-15 of the originally filed application (paragraph [0049] of the present application as published), with the following amended paragraph.

[0049] FIG. 11 shows a schematic partial side view of the device according to one of FIGS. 1 through 3, illustrating three different positions a) through c) of the forked mountings 7 resulting from the eccentricity of the axle shafts 5 or eccentric rollers 3. The various ellipsoidal motions of ~~[the forked motions of]~~ [†][sic[†]] the forked mountings 7, and thus of the supporting plates connected thereto, can be seen from these positions.

[†]~~Translator's note: bracketed text is superfluous in source document.~~
